Title

Department

Description

Volunteers in this program have the opportunity to interact with patients through play on an inpatient unit, day-treatment setting, or in a patient playroom. Patients range in age from infancy to 3 months of age. Through the support of the nursing staff and Child Life Specialists, volunteers are an important part of the patient's care plan. Volunteers can expect to play games, do arts and crafts, cuddle a baby, read stories or go for a walk with patients as a part of their role.
